## Front End Developer

January 2023 - January 2024

AdmissionBox /

As a Front End Developer at AdmissionBox, I was responsible for creating and maintaining user-friendly and visually appealing web applications. With a strong knowledge of HTML, CSS, and JavaScript, I was able to collaborate with the design team to bring their visions to life. Along with my technical skills, I also utilized my strong communication and problem-solving abilities to ensure projects were completed efficiently and accurately.

- Developed responsive and cross-browser compatible websites
- Implemented front end design changes based on user feedback
- Collaborated with back end developers to ensure seamless integration
- Conducted regular testing and troubleshooting for optimal functionality
- Streamlined website navigation for improved user experience
